

Dromex

NON-ABRASIVE SOCKS

DF-8055-BLK

DF-8055-NB

Description

Dromex® non-abrasive, industrial work socks are designed to safely prevent and eliminate blisters and hot spots when wearing heavy shoes such as steel toe boots.

Constructed with mohair, these socks feature the following properties:

- Reinforced heel and toe for durability.
- Rib cuff/top ensures the sock stays up and provided a secure fit preventing ingress of dirt.
- Size marked on sock for easy identification.
- Being a natural fibre, prevents bacteria build-up and allows your feet to breath whilst keeping them dry.
- A natural insulator, keeping feet thermally balanced (cool in hot temperatures and warm in cold conditions).
- The smooth cuticle structure of mohair fibre used in the foot region results in a smooth surface reducing chafing and blisters.
- Odour free.

These socks are available in two colour:

- Black (Code: DF-8055-BLK)
- Navy blue (DF-8055 NB)

The terry cotton and mohair fibre blend pads the sole. Especially suitable for use in rough terrain, and are durable and shrink-free.

Suitable for use in manufacturing environments, construction, mining and agriculture.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer is examined under the system for ensuring quality of production by means of monitoring and inspection. These socks are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the socks suitability for the intended use.

All socks be should be thoroughly inspected before and after use to ensure no damage is present. If socks are damaged upon inspection or during use, dispose of the socks and replace immediately.
