Packaging, Storage & Obsolescence

Dromex SA10 reflective wear is packed in individual plastic bags and sold as 50 units per carton.

When not in use or during transportation, the reflective wear should be stored in a container such that it is out of direct sunlight and not in contact with any chemicals, liquids or sharp objects.
 Store in a cool dry place.
 The reflective wear useful life is affected by many factors including the cold, heat, chemicals, sunlight and misuse but if stored correctly should have a shelf life of 3 years.

Sizes Available

Small to 5XL.

Cleaning & Maintenance

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Reflective protective gear should be disposed of considering the hazardous substance they were used for. Please consider recycling.
