## DRY FIT GUMBOOTS

DF-CH-GB-XX

### Description

The Dromex® Dry Fit, Chelsea style, PVC (Polyvinyl Chloride) lightweight gumboots, is designed to keep users' feet dry from water and mild liquid hazards, whilst providing ankle protection, comfort and durability.

These boots are suitable for use in industries such as agriculture, landscaping/ gardening, janitorial applications, food processing and leisure wear environments, where there is exposure to water and mud.

The Dromex® Dry Fit gumboots range features the following:

- Constructed from recycled PVC (upper) and virgin PVC (outsole), they are lightweight, durable and environmentally friendly.
- They are simple to clean and dry fast.
- Lined with nylon, they are simple to don and doff (put on and take off) along with an easy pull tab support and elastic ankle gusset construction.
- A removable felt insock (made of wool) that is comfortable, breathable and quick drying due to its wicking nature.
- A slip and grip resistant cleated outsole.
- An energy absorbing heel.
- A broad fitting toe region allows for a comfortable fit, ideal when used over long periods of time.
- Unisex in fit.
- Available in 2 color options, black with brown sole and white with grey outsole.

### Special Instructions

- Footwear made entirely of plastic or rubber is classified as water resistant.
- None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.
- The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection.
- These safety gumboots are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.
- The information contained herein is intended to assist the wearer in the selection of personal protective equipment.
- Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the boots suitability for the intended use.

- Do not use in environments exposed to heat, and open flames and high concentrations of chemicals.
- It is important to note that footwear is subject to many different conditions encountered in everyday use and that it is impossible to make footwear resistant to slip in all conditions.
- Should the footwear be cared for and worn in the correct working environment and stored in dry ventilated conditions, it should give a good wear life, without premature failure of the outsole and upper. The actual wear life for footwear is dependent on the type of footwear, environmental conditions which can effect the wear, contamination and degradation of the product.
- Do not modify this footwear as modification can invalidate type approval.
- Make allowance for extra socks or special arch supports when buying these gumboots.
- It is important that the footwear selected for use must be suitable for the protection required and wear environment.
- Where a wear environment is not known, it is very important that consultation is carried out between the seller and the purchaser to ensure, where possible, the correct footwear is provided.

### Packaging, Storage & Obsolescence

- Dry Fit boots are packed as individual pairs in a box.
- Store in a cool dry place away from sunlight.
- Should the footwear become damaged, it will not continue to give the specified level of protection and to ensure that the wearer continues to receive the maximum protection, the footwear should immediately be replaced.
- The packaging provided with the footwear at the point of sale is to ensure that the footwear is delivered to the customer in the same condition as when dispatched. The packaging poly bag can also be used for storing the footwear when not in use.
- When the boots are in storage, do not place heavy objects on top of it as this could cause breakdown of its packaging and possible damage to the footwear.

KEEP UN-USED BOOTS IN ITS PACKAGING AND STORE IN A DRY NON-CONTAMINATED AREA BETWEEN 2° C (Celsius) AND + 55° C (Celsius)

KEEP UN-USED BOOTS IN ITS PACKAGING AND STORE IN A DRY NON-CONTAMINATED AREA AT A RELATIVE HUMIDITY UNDER 75%

KEEP AWAY FROM WATER

### Fitting Warnings

- Only wear footwear of a suitable size.
- Footwear that is either too loose or too tight will restrict movement and will not provide the optimum level of protection.
- The size of the product is marked on the boots.
- Try on your new safety boots with the supports or socks you usually wear at work.
- Always wear gumboots with socks to keep your feet warm and protect them from rubbing and blistering.

### Cleaning & Maintenance

- All safety protective footwear should be thoroughly inspected before use to ensure no damage is present.
- After each use, remove insock and wipe dirt and mud off boots with a damp (not wet) cloth and a mild soap.
- Do not use any caustic cleaning agents.
- Allow boots to air dry at room temperature thoroughly between wearings.
- Do not dry boots on or near a heat source, as PVC (Polyvinyl Chloride)/Nitrile melts and emits harmful fumes.
- Dry your boots carefully when wet and avoid abrupt temperature change. Dry naturally in a cool, dry area. Do not force dry as this can cause deterioration of the upper material.
- Never spray your perfume or deodorant in the interior of your boots to ward off the odour. Instead, keep silica packets inside them when not in use.
- Safety boots should not be left in contaminated condition if re-use is intended especially if potential hazards exist.
- Harsh cleaning agents will further damage the PVC (Polyvinyl Chloride)/Nitrile resulting in cracking of the upper and sole.
- Due to a wide variety of possible constructions and combinations with other materials we recommend to always consult your professional cleaning service to determine the best suitable cleaning method.
- To ensure the best service and wear from footwear, it is important that the footwear is regularly cleaned and treated with a good proprietary cleaning product.

### Sizes Available

- Dromex® Dry Fit: 4 -13

UK SIZE	4	5	6	7	8	9	10	11	12

### Warranty & Returns

Returns and warranties are assessed on an individual basis. Our returns and warranty policy is available upon request.

### Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Safety protective boots should be disposed of considering the hazardous substance they were used for. Please consider recycling.
